

FEATURES:

- She was built in 1990 by Buckie Shipyard and operated as a ferry until 1995 when she was bought by the NAFC Marine Centre
- 12.7 metre ex ferry come workboat
- Twin Caterpillar engines producing 373 HP
- 240 volt electronics and a wide range of navigation equipment on board
- Very manoeuvrable and economical, cruising speed 10 knots
- Licensed to carry 12 persons, galley and mess room, sleeps seven

A multibeam side-scan sonar has been fitted, which enables greater understanding and knowledge of the marine environment. It accurately profiles the water column and seafloor, highlighting reefs, wrecks, fish schools, seafloor hardness changes and foreign objects in the water column or on the seabed.

CAPABILITIES:

Benthic sampling and surveying, environmental monitoring, seabed profiling, training and navigation courses
